

## GREENWORX CLEANING SOLUTION

Bio Tech probiotic hand soap, gel and foaming. Treatment of grey water / septic tank cleaning and deodorising organics.

Products/Ranges:	Various products-See comments (page 6)
Product Stages Assessed:	Whole of life +re-use potential
Product Type:	Cleaning Product
Licenced Site/s:	Kya Sands, South Africa
Licence Number:	GRE:CP02:2023:PH
Licence Date:	29th May 2023
Valid To:	29th May 2025
Standard:	GGT International Cleaning Product v1.1
Screening Date:	06th April 2023
PHD URL:	<a href="http://www.globalgreentag.co.za/certificate/2266">www.globalgreentag.co.za/certificate/2266</a>

<b>PHD Summary</b>	<b>Inventory Threshold:</b>	<b>Inventory Method:</b>
Percentage Assessed: <b>100%</b>	100ppm Product Level	Nested Materials

- Meets "Green Cleaning" requirements for Green Star.
- Meets WELL™ v1.0 Features 97: Material Transparency and WELL™ v2.0 Features – X07: Material Transparency and X08: Material Optimisation, X11:Cleaning Products & Protocols (Part2)
- No worker exposure to Carcinogens, Mutagens, Reproductive Toxicant or Endocrine Disruptors.
- No user exposure to Carcinogens, Mutagens, Reproductive Toxicant or Endocrine Disruptors.
- No environmental exposure to Carcinogens, Mutagens, Reproductive Toxicants or Endocrine Disruptors.

INGREDIENT HAZARD DISCLOSURE, RISK ASSESSMENT, & IN USE HEALTH, % by mass. See over for explanation.

ASSESSMENT:

Declared by:  
Global GreenTag  
International Pty Ltd

David Baggs  
CEO

Verified compliant with:  
ISO 14024 & ISO 17065

## 1.0 Scope

The Global GreenTag International (GGT) Product Health Declaration (PHD) has been designed to provide an additional level of service to the green product sector in facilitating an easier understanding of both the hazard and risks associated with any certified products, and is intended to indicate:

- Chemical hazards of both finished product and unique ingredients to a minimum level of 100ppm for final product throughout the product life cycle (including any VOC or other gaseous emissions);
- An assessment of exposure or risk associated with ingredient handling, product use, and disposal in relation to established mitigation and management processes;

It is not intended to assess:

- substances used or created during the manufacturing process unless they remain in the final product; or
- substances created after the product is delivered for end use (e.g., if the product unusually degrades, combusts or otherwise changes chemical composition).

GGT PHDs are only issued to products that have passed GGT Standards' certification requirements. The Level of Assessment (BronzeHEALTH, SilverHEALTH, GoldHEALTH or PlatinumHEALTH) of a PHD rating relates ONLY to a Human Health Toxicity Assessment and is declared separately and not equivalent to the overall Bronze, Silver Gold or Platinum Green Tag Certification Mark Tier Levels of LCARate.

## 1.2 Preparing a PHD

GGT PHDs are prepared in the format of a transparency document which utilizes Hazard Classifications from the UN Globally Harmonised System of Classification and Labelling of Chemicals (GHS). Hazard Classifications are then risk assessed with a focus on the In Use stage for an outcome of Certification. Assessments are undertaken by GGT Qualified Exemplar Global Lead Auditors and subsequently accepted for Certification by the GGT Program Director (also a Qualified Exemplar Global Lead Auditor) under the International Standard v4.0/4.1, Personal Products Standard v1.0/1.1, or Cleaning Products Standard v1.1/1.2 and above Program Rules.

## 1.3 External Peer Review

Every GGT PHD is independently peer-reviewed by an external Consultant Toxicologist and Member of the Australasian College of Toxicology & Risk Assessment.

## 2.0 Declaration of Ingredients

Where a manufacturer wishes recognition under a rating program that requires transparency of ingredients, such as LEED<sup>®</sup> v4.0 & v4.1, WELL<sup>®</sup> v1.0 & v2.0, Green Star<sup>®</sup>, the following information is declared from the audit:

Colour	Ingredient Hazard Disclosure
Green	<b>Level 4</b> The hazard level of this ingredient indicates that the ingredient has no toxic hazard statements with no identified health effects.
Yellow	<b>Level 3</b> The hazard level of this ingredient indicates that the ingredient is mildly toxic and/or has short/medium term reversible health effects.
Orange	<b>Level 2</b> The hazard level of this ingredient indicates that the ingredient is moderately toxic and/or with a moderate health effects.
Red	<b>Level 1</b> The hazard level of this ingredient indicates that the ingredient is highly toxic with a potential for severe health effects.
Black	<b>Level 0</b> The hazard level of this ingredient indicates that the ingredient is highly toxic with a potential for severe health effects and is banned from being detectable above trace amounts in the final product.
Grey	<b>Grey Chemical</b> Not able to be categorised due to lack of toxicity impact information.
Colour	Risk Assessment & In Use Health Assessment Outcome
Green	<b>No Concerns</b> The risk assessment outcomes for the hazard level and percentage of ingredient used in the product after risk assessment is considered highly unlikely and therefore without concerns.
Yellow	<b>Human Health Comment</b> The risk assessment outcome for the hazard level and percentage of ingredient used in the product is after risk assessment considered low with an unlikely potential risk.
Orange	<b>Issue of Concern or Issue of Concern Minimised</b> The risk assessment outcome for the hazard level and percentage of ingredient used in the product is after risk assessment considered low to high with a higher than unlikely potential for risk.
Red	<b>Red Light Comment or Red Light Comment Minimised</b> The risk assessment outcome for the hazard level and percentage of ingredient used in the product is after risk assessment considered low to extremely high with a moderate potential for risk.
Dark Red	<b>Red Light Exclusion</b> The risk assessment outcome for the hazard level and percentage of ingredient used in the product is after risk assessment considered medium to extremely high with a likely potential for risk.
Grey	<b>Grey Chemical</b> Not able to be categorised due to lack of toxicity impact information.
Black	<b>Banned Ingredients</b> Level 0 Hazard Level categorised chemicals such as Substances of Very High Concern in the International Standard v4.0/v4.1 and/or Petroleum, Parabens plus a wide range of additional compounds stipulated by the Personal Products Standard v1.0/1.1 and Cleaning Products Standard v1.1/1.2.

Global GreenTag International Pty Ltd (Global GreenTag) is not a medical professional organisation. Global GreenTag does not purport to provide medical advice, and makes no warranty, representation, or guarantee regarding the declaration that it provides in relation to any allergies, chemical sensitivities or any other medical condition, nor does Global GreenTag assume any liability whatsoever arising out of the application or use of any product or piece of equipment that has been chemically assessed by Global GreenTag.

The chemical assessments carried out provide transparent information peer reviewed by a consultant toxicologist regarding the chemical make-up and ingredients of certain materials and products, but such assessments are not to be taken as any form of medical assessment or health advice and are not targeted towards providing specific solutions to allergenic conditions or any other type of medical concerns.

Users must carry out their own investigations if they are concerned about specific medical conditions and the impact of certain products or ingredients in relation to specific medical concerns.

Global GreenTag takes no responsibility and is not liable in any way with respect to any medical or health issues arising from a person's use of materials or products that have been chemically assessed by Global GreenTag. Global GreenTag shall not be liable for any direct, indirect, punitive, incidental, special or consequential damages to property or life whatsoever, arising out of or connected with the use or misuse of any materials or products that have been assessed by Global GreenTag.

Ingredient Name	CAS Number OR Function	Proportion in finished product	GHS, IARC & Endocrine Category	REACH	Ingredient Assessment	Whole Of Life Assessment	In Use Health Assessment	Comment
Activated Sea Water)	Diluent	0-5%	NONE	OK				No identifiable risk for manufacturing or use phases. Recycled Content: None Nanomaterials: no
Anionic Surfactant	68585-34-2	0-1%	H315 H319	OK				The substance may cause harm when in contact with skin,eyes.It also has harmful long lasting effect on aquatic life. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
Bacilus Strains								
C9-C11 Alkyl alcohol ethoxylate	68439-46-3	0-0.1%	H318, H302	OK				The substance may cause harm when in contact with skin,eyes.It also has harmful long lasting effect on aquatic life. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
1,2-benzisothiazolin-3-one BIT (biocide)	2634-33-5	0-0.1%	H302, H315, H317, H400	OK				The substance may cause harm when in contact with skin,eyes.It also has harmful long lasting effect on aquatic life. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
Sodium Hydroxide	1310-73-2	0-0.1%	H314	OK				The substance may cause harm when in contact with skin,eyes.It also has harmful long lasting effect on aquatic life. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
Linear alkylbenzene sulfonates	68411-30-3	30-50%	H302,H315, H318,H412	OK				The substance may cause harm when in contact with skin,eyes.It also has harmful long lasting effect on aquatic life. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
Sodium Hydroxide	1310-73-2	0-0.1%		OK				The substance may cause harm when in contact with skin,eyes.It also has harmful long lasting effect on aquatic life. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
Coconut Diethanol Amide								

Cocamide DEA	68603-42-9	0.5-2%	H315, H318	OK				The substance may cause harm when in contact with skin,eyes.It also has harmful long lasting effect on aquatic life. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
Glycerin	56-81 -5	0-0.1%	H319	OK				The substance may cause harm when in contact with skin,eyes.It also has harmful long lasting effect on aquatic life. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
Diethanolamine, DEA	111-42-2	0-0.5%	H302,H315,	OK				The substance may cause harm when in contact with skin,eyes.It also has harmful long lasting effect on aquatic life. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
Methanol	67-56-1	0-0.1%	H225,H301,	OK				The substance may cause harm when in contact with skin,eyes.It also has harmful long lasting effect on aquatic life. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
Proprietary	Fragrance	1-5%		OK				The substance may cause harm when in contact with skin,eyes.It also has harmful long lasting effect on aquatic life. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
Polyoxyethylene C9C11 ether	68439-46-3	0-2 %	H302, H318	OK				The substance may cause harm when in contact with skin,eyes.It also has harmful long lasting effect on aquatic life. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
Glycerine 1,2,3-trihydroxypropane	56-81-5	0-0.2 %	H319	OK				The substance may cause harm when in contact with skin,eyes.It also has harmful long lasting effect on aquatic life. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
Blue Colourant	68921-42-6	0-0.2 %	NONE	OK				Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. Recycled Content: None Nanomaterials: no
PolyGel	Thickening agent	2-4\$	NONE	OK				Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. Recycled Content: None Nanomaterials: no

Caprylyl/Capryl Glucoside	68515-73-1	0.5-1%	H318	OK				The substance may cause harm when in contact with skin,eyes.It also has harmful long lasting effect on aquatic life. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
Phenoxyethanol	122 -99 -6	0.1-0.5%	H302, H318, H335	OK				The substance may cause harm when in contact with skin,eyes.It also has harmful long lasting effect on aquatic life. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
Proprietary (Odiferous)	Fragrance	1-5%	H304, H315, H317, H411	OK				The substance may cause harm when in contact with skin,eyes.It also has harmful long lasting effect on aquatic life. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
Neutralised Benzene Sulphonic Acid	68411-30-3	10-20-%	H302,H315, H318,H412	OK				The substance may cause harm when in contact with skin,eyes.It also has harmful long lasting effect on aquatic life. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
Water	Diluent	75-80%	NONE	OK				No identifiable risk for manufacturing or use phases. Recycled Content: Unknown Nanomaterials: no
